

Ritco Logistics strengthens Gujarat's polymer corridor with new high-throughput Polypropylene facility in Kheda, Gujarat

Gurgaon, 6th February 2026: Ritco Logistics announces the commissioning of a cutting-edge 25,000 sq.ft. dedicated warehouse for polypropylene storage in Kheda, Gujarat, right on the high-stakes Mumbai-Delhi Highway. This isn't just added capacity it is a precision-engineered response to the polymer industry's zero-tolerance for delays, where throughput defines success.

Situated strategically on the Mumbai–Delhi Highway, the facility is designed to serve as a high-velocity node for one of India's largest polypropylene manufacturers. The warehouse is covered with temperature-controlled facility ensuring protection from heat and weather variations. Out of 35,000 sq. ft. warehouse space 10,000 sq. ft. is empty & suitable for immediate operations. It is equipped with 12 loading and unloading docks for swift operations along with forklift services. 40-foot vehicles reduce the turn-around time. Highly trained and skilled manpower ensure accurate and damage-free handling. With modern compliance requirements, it ensures complete safety. 24 x 7 security and monitoring facilities adds to the safety layer. Parking facilities are designed to provide enough space and movement.

Dr. Rajesh M Mudaliar, Chief Business Officer at Ritco Logistics said, "In logistics, especially for polymers, it's all about flow—uninterrupted inbound, outbound, and everything in between. Our team has eliminated cross-congestion with smart layout design, maintaining pinpoint inventory accuracy across 10 active SKUs. Our in-house material handling equipment (MHE) and dedicated teams ensure zero downtime, while fire-proof construction, advanced sprinklers, and insulated roofing keep safety front and center. Capacity of this nature doesn't need to announce itself loudly. In our business, success is measured by the silence of a seamless operation. This Kheda facility isn't just about floor space; it's about reshaping what a manufacturer can expect from their logistics partner in terms of speed and reliability."
